MEDICAL PRICE &
TREATMENT MENU
2019

CHRYSA LISA **AESTHETIC**

Treatments performed by trained therapists. We do require you to consult with a therapist prior to undergoing any clinical skin treatment. These consultations are complimentary and are to ensure the safest and most effective outcome for your skin. All clinical skin treatments are finished with skincare serums, SPF and mineral makeup if required.

SKIN CONSULTATION **30 mins/complimentary**

A consultation is required with a qualified Dermal Therapist prior to undergoing any clinical skincare treatment. This allows us to get to know you and your skin. A consultation is the first step in determining the treatments and products required to address your particular skin concern/s.. Your consultation will include a complete skin health analysis, which will involve assessment of both internal and external factors that contribute to your skin concerns. A written plan, a Visia TM skin analysis, and photos will be incorporated with your consultation. The purpose of photos is to document any changes during your skins progression. Please note if you would like us to review your current skincare regime we recommend taking a photo of the homecare products to show us in your appointment.

CUSTOMISED MEDIFACIAL **60 MINS / \$125**

Suitable to treat different skin conditions such as dryness, dullness, and congested skin. Medifacials are a great place to start to improve your epidermal function before moving on to more advanced treatments, or as a simple pick-me-up to restore a glow back into your skin. Our customised medifacial is tailored specifically to each individual's skin type, and can include a deep cleanse, enzyme treatment, steam with extractions if needed, custom mask and LED light therapy.

HYDRAFACIAL MD **60 mins / \$150 - purchase 3 & get the 4th at 50% off**

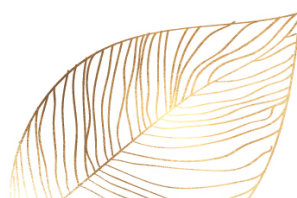

Hydrafacial is a worldwide treatment that is often found in five-star clinics. Hydrafacials provide instant hydration and exfoliation with no discomfort or downtime. This resurfacing procedure thoroughly cleanses, extracts, hydrates, and includes LED light therapy.

HYDRAFACIAL MINI **30 mins / \$120 -purchase 3 & get the 4th at 50% off**

As per the Hydrafacial MD, this is the perfect express treatment for busy people. Includes the three main Hydrafacial steps - deep cleanse, vortex extraction and antioxidant hydrating infusion, the LED light therapy is not included.

DEEP CLEAN FACIAL **75 mins / \$160 (\$140 only for school-age teens)**

Suitable for acne and congested skin types, this facial has been specifically designed to deeply cleanse and exfoliate. This treatment includes a double cleanse, enzymatic exfoliation, oxygenation treatment, steam and extractions, either a customised mask or superficial peel, and LED light therapy. Your therapist will advise you on choosing the best options for your skin.

CHRYSLISAESTHETIC

CHEMICAL PEELS

60 mins / from \$105 - \$160

Add on cooling peptide mask / \$130

Add on eye mask / \$10

Purchase 3 & get the 4th at 50% off

Peels are effective for immediate brightening and freshening, whilst others are more targeted to produce long-term results for specific skin needs and concerns. Peels contain ingredients such as Vitamin A, fruit enzymes, glycolic, mandelic, lactic, and salicylic acid to remove dead cell build-up and to accelerate the skin's own exfoliation process. Choosing the appropriate peel for your skin is determined by your skin concerns, your current skin care regime and skin condition. Some skin types must be prepped on active cosmeceutical ingredients prior to the application of a peel, this is to ensure a safe and effective outcome and to avoid unwanted complications. Downtime varies, if this is one of your concerns please discuss this with your Dermal Therapist. All our peel treatments include an LED light therapy.

EPIDERMAL LEVELLING

60 mins / \$120 - **Purchase 3 & get the 4th at 50% off**

A gentle, yet effective treatment for exfoliation and removal of vellus hairs; or more commonly known as peach fuzz. Epidermal levelling utilises single-use, sterile blades that remove both dead skin cells and vellus hairs. The skin feels smooth and makeup sits beautifully post-procedure. All epidermal levelling treatments include a customised mask and LED light therapy.

LED LOW LEVEL LIGHT THERAPY

30 mins / \$50

Add-on to other treatment / \$25

Package of 8 / \$300

This warm, relaxing treatment utilises three different coloured lights at varying wavelengths to activate a reaction in skin cell activity. LED is especially useful where an increased healing response is desired. We include LED light therapy after skin needling, chemical peels, Hydrafacial MD, epidermal levelling, deep clean facials, or to conclude a relaxing medifacial. LED is also used post surgical procedures, ablative laser or superficial burns. This treatment includes a double cleanse, application of the LED light therapy, customised serums and SPF to finish.

PROTOGE ELITE

60 mins / **Package of 4 full face rejuvenation \$1,600**

60 mins / **Package of 4 lower face & neck rejuvenation \$1,600**

Protege elite utilises radio frequency to stimulate collagen and elastin fibres to reduce fine lines, wrinkles, and pores. This treatment provides the best result as a course of four rather than singular session. The benefit of this treatment is that there is no downtime involved, and treatments can be performed every 2-4 weeks.

CHRYSLISAESTHETIC

DERMAPEN SKIN NEEDLING

90 - 120 mins / \$250

Course of 3 / \$600

Course of 6 / \$1,200

Skin needling causes a controlled wound within the skin to encourage its own natural repair processes. A course of Dermapen skin needling stimulates the skin's epidermal growth factors leading to an increased production of collagen and elastin within the skin. Downtime varies between individuals but generally the skin can remain pink and a bit sensitive for 1-2 days post treatment, but this can be covered by mineral make up. Skin needling includes a double cleanse, gentle enzymatic exfoliation, LED light therapy, numbing cream application (if needed), followed by a cooling gel peptide mask and post treatment serums to finish.

EXPRESS DERMAPEN SKIN NEEDLING

75 mins / \$150

Course of 3 / \$450

Course of 6 / \$700

Add on numbing cream 30 mins / \$25

This treatment is perfect for people who don't have much time on their hands but they still want to benefit from the great results delivered by Dermapen skin needling. The service includes double cleanse, LED light therapy followed by post treatment products to finish.

DERMAPEN SKIN NEEDLING EXTRA

Add on antibacterial oxygen treatment / \$30

Add on cooling peptide mask / \$30

Add on eye mask / \$10

Add on neck or décolletage / \$50

Body Areas / POA

INTENSE PULSED LIGHT - IPL

15 - 60 mins

Full face / \$250

Neck or Décolletage / \$150

Sport treatment / \$50

Body / POA

The Cutera Limelight system enables a safe and effective system to reduce pigmentation and redness. IPL is indicated to treat different skin conditions such as freckles, sun spots, diffuse redness, telangiectasia and Pokiloderma of Civatte. A minimum of 3 to 6 treatments are required to target and deliver the desired results. This treatment can be performed on light to medium-dark skin tones only, and a pigment-inhibiting product is required 2 weeks prior commencement of treatment. Downtime can vary between 3-12 days.

CHRYSALESTHETIC

LASER GENESIS

30 - 60 mins full face / \$250
10 - 30 mins individual scars / \$50
Course of 6 full face / \$1,250

Laser Genesis is a non-ablative, comfortable and proven laser treatment designed to stimulate collagen and elastin fibres, reduce the appearance of redness, open pores and fine lines. It includes a double cleanse, gentle fruit enzyme exfoliation, oxygenating treatment to soothe and calm post-laser, and protective serums to finish. Laser Genesis can be performed as a stand alone treatment to reduce the appearance of some scars. The majority of skin types can be treated, but darker skins will need to be prepped with a pigment inhibiting product 2 weeks prior to commencing the treatments. Low to no discomfort is involved with Laser Genesis, and no downtime is associated, this is the perfect monthly maintenance treatment.

VASCULAR LASER

30 - 60 mins Facial vessels / from \$50 - \$200
30 - 60 mins Leg and Body / from \$150 - \$250

Upon consultation, larger or more complex vascular lesions can be treated as a medical concern. Vascular lasers selectively target the red pigment in blood vessels in the skin, whilst minimising damage to the surrounding normal skin structures. A minimum of 3 sessions are recommended for optimal results.

LASER HAIR REDUCTION

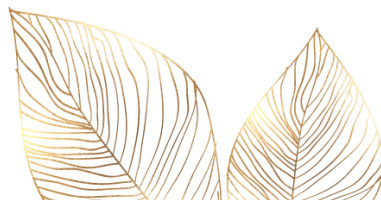

Please see website for price list

Laser hair reduction is speedy and offers amazing results with minimal discomfort. We recommend a course of 8 - 10 treatments to achieve the desired results performed every 2 weeks for facial hair and every 4 to 6 weeks for the body. Laser hair reduction works by targeting the pigment called melanin in the hair follicle, causing the hairs to grow back slower, and less pigmented. Please be aware that only black, dark brown or dark blonde hair will respond to laser hair reduction.

COSMELAN

Full face \$1,150

Cosmelan is the gold standard to treat hyper-pigmentation and uneven skin tone. Developed in Spain, Cosmelan is a highly innovative system that treats unwanted pigmentation on the face and body. The two-phase intensive treatment programme firstly involves the application of a highly potent de-pigmenting mask. This is applied from one of our qualified dermal therapists and it is not washed off for up to 6-10 hours following application (dependent on skin type). The second treatment phase is an at-home maintenance solution that is applied twice daily to enhance the effects of the mask. This safe and non-invasive procedure treats the source of the pigment formation to deliver a rapidly clearer, brighter and more clarified complexion without the use of lasers.

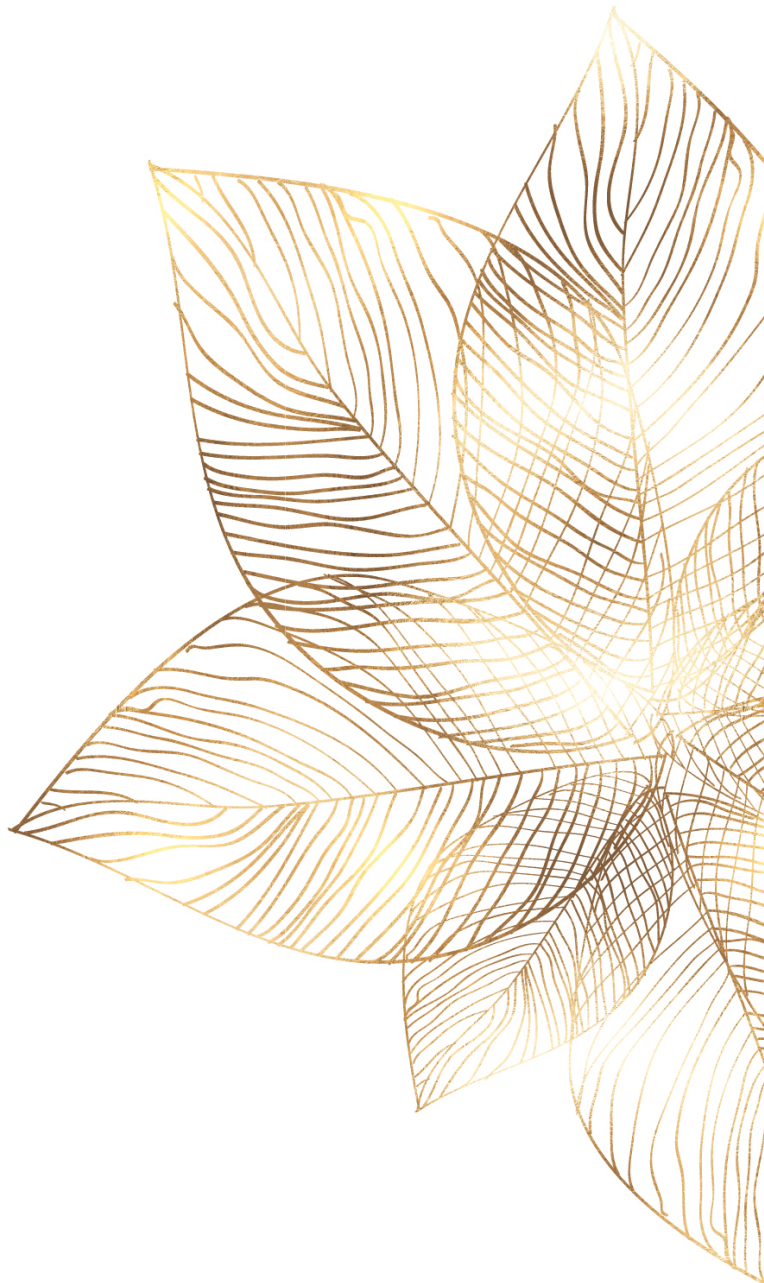

CHRYSLISAESTHETIC

COOLSCUPTING

60 mins per cycle / from \$550

Cycle packages available

CoolSculpting is the worlds most well-researched fat reduction system. CoolSculpting is non-invasive and uses processes called cryolipolysis to permanently reduce fatty bulges in areas such as the tummy, hips and inner thighs. Consultations are required prior to treatment.

A black and white close-up portrait of a woman's face, focusing on her eye and hair. The image is soft and artistic, with the woman's hair being light-colored and slightly tousled. The text is overlaid on the lower right portion of the image.

“COSMELAN IS THE GOLD
STANDARD TO TREAT
HYPER-PIGMENTATION AND
UNEVEN SKIN TONE”

CHRYSALIS INJECTABLES

COSMETIC INJECTABLES CONSULTATION **30 mins / complementary**

Facial ageing is a result of changes in the skin, muscles, fat and bones of the face. Every face ages uniquely and therefore, a comprehensive facial assessment is essential to ensuring that your concerns are addressed. Our expert cosmetic practitioners will consult with you to determine your areas of concern before formulating a treatment plan; creating bespoke, natural results, treatments.

MUSCLE RELAXANT TREATMENTS **30 mins**

This treatment is indicated for expression lines and excessive muscle activity. Tiny injections of a purified muscle-relaxing product result in reduced activity of the muscles. The result is a relaxed, fresher and smoother appearance. Over time, wrinkles are visibly reduced.

Product 1

\$4.00 unit

2 area package \$410

3 area package \$525

Product 2

\$14 unit

2 area package \$572

3 area package \$720

LIP ENHANCEMENT

60 mins / from \$450 - \$530 per mL

Lip enhancement uses dermal filler to enhance that perfect pout. Great value for patients looking to either create balanced and natural lip volume or restore lip shape and definition.

DERMAL FILLERS

60 mins / between \$520 - \$700 per mL

Lip Lines / NLF - Cheeks - Jawline - Chin - Temples - Tear Trough

At Chrysalis Medispa, our cosmetic injectors can choose from a wide variety of dermal fillers specifically designed to work in a different layer of the skin and produce different treatment effects. Dermal Fillers are a gel-like product used to help softly revitalise your facial features. Most commonly injected under the skin's surface to soften lines and wrinkles or restore volume lost to ageing.

Packages:

Chrysalis Refresh \$1,120 (2ml dermal filler)

Chrysalis Rejuvenate \$1,620 (3ml dermal filler)

Chrysalis Restore \$2,080 (4ml dermal filler)

Chrysalis Liquid Facelift \$2,500 (5ml dermal filler)

CHRYSALIS INJECTABLES

SKIN BOOSTERS

60 mins / from \$410 mL

Skin boosters offer a subtle, gradual change in skin quality and elasticity that develops over four weeks. What you get is a natural but noticeably invigorated lustre to your skin that can last 6-12 months. Also, a beautiful treatment to rejuvenate both hands and décolletage.

Packages:

2ml skin booster package \$540 (2 areas)

3ml skin booster package \$840 (3 areas)

COLLAGEN STIMULATOR

60 mins / \$700

Collagen stimulators are injected deep under your skin to stimulate and revitalise your natural collagen production. As your natural collagen production is stimulated, the skin starts to regain its youthful structure and volume. Over time wrinkles, volume loss and defects are gradually corrected.

PRP (PLATELET RICH PLASMA)

60 mins / from \$400

PRP stands for Platelet Rich Plasma, which is blood plasma containing a concentration of platelets, also known as thrombocytes. PRP can help regenerate and revitalise damaged tissue. Platelets naturally stimulate growth factors which will assist with collagen growth, elastin and blood supply to the treated area, over the next few weeks. It is recommended patients have 2-3 treatments 4-6 weeks apart.

AQUAGOLD® FINE TOUCH™ FACIAL

60 mins / \$599

AQUAGOLD® Fine Touch™ is a revolutionary device that painlessly and effectively stamps bespoke skin booster filler, vitamin cocktail & anti-wrinkle into the skin. Treatments with AQUAGOLD® can promote cell stimulation and overall skin rejuvenation. For best results and efficacy, we recommend maintenance treatments every 3-4 months. The AquaGold® device can also be used with your PRP treatment. For further information, please inquire with your injectables practitioner.

LED LIGHT THERAPY

15mins / complementary with selected treatments

At Chrysalis, we want your post-treatment results to be as natural and unassuming as possible. Therefore, all our dermal filler packages (of 2ml or more), PRP and Sculptra treatments include one complimentary Healite II™ LED treatment. This short post-treatment light treatment energises your cells to increase cell function, stimulate blood flow and promote health.

“GUINOT FACIALS ARE
BEAUTIFUL, RELAXING
TREATMENTS THAT INCLUDE A
EUROPEAN-STYLE FACE
NECK, AND DEC MASSAGE”

CHRYSAISSPA

These treatments can be enjoyed on their own or added onto a clinical skin treatment for the full medispa experience. Spa and wellness treatments are perfect for gift vouchers or simply for when you need some time out.

GUINOT FACIALS **75 mins / \$120**

Guinot is a luxurious French skincare brand that contain marine and plant extracts. Guinot facials are beautiful, relaxing treatments that include a European-style face, neck, and dec massage. Perfect for anyone who would need a little relaxation time while nourishing the skin.

HYDRADERMIE

Guinot's cult facial, loved by millions worldwide. This high tech facial utilises specially designed micro currents to gently infuse active ingredients deeply into the skin. Hydradermie Double Ionisation is able to be customised for most skin concerns and is ideal for dehydrated, dull, congested or tired skin. Complete with a lymphatic massage and mask therapy, Hydradermie Double Ionisation gives long lasting results.

AROMATICS

Indulge your skin with the power of botanicals! Guinot's Aromatics facial incorporates essential oils which are chosen by your therapist after your skin analysis, meaning each aromatherapy blend is specifically designed to suit your skin concerns. Aromatics is the ultimate relaxation facial, featuring a long, luxurious massage of the face, neck and shoulders.

LIFTOSOME

Vitamin C and Pro-Collagen serums are blended to feed your skin the most nourishing, lifting, firming formula! Liftosome features a heavy thermal mask which firms on the skin, creating a velvet cocoon. Upon removal, the skin is visibly firmed and feels lifted! Liftosome features a beautiful massage with Japanese lifting techniques to help smooth the skin.

AGE SUMMUM

This facial combines the benefits of Vitamin C and 56 biological active ingredients and exfoliation to renew aged skin. The exfoliation process, with active microparticles, removes dead cells and allows new cells to appear. From the first step of the treatment, the skin already looks more youthful and lines are smoother.

HYDRALIFT

This facial is not for the faint hearted but is for those who seek instant lifting results! Hydralift employs micro currents to create electromuscular stimulation. This causes contraction in the facial muscles - it's like a workout for your face! The result? Features that look visibly firmed and lifted. A pressure point massage and Vitamin C lifting mask complete this treatment.

CHRYSSALIS**SPA**

HYDRA PEELING

A gentle peel containing AHA's and fruit enzymes that remove dead skin cells and restore vitality and radiance to the skin. Clarimasque, enriched with Vitamin C, helps to reduce dark spots and even skin tone, leaving the face looking new, radiant and beautiful. This treatment also smells beautiful!

ADD ON EYE LOGIC

30 mins / \$50

Eye logic is specially designed for the delicate eye area. It targets puffiness, dark circles and wrinkles with double ionisation, and is finished with a gentle, relaxing mask and massage in the eye region.

"SPA AND WELLNESS
TREATMENTS ARE
PERFECT FOR
GIFT VOUCHERS
OR SIMPLY WHEN
YOU NEED SOME
TIME OUT."

CHRYSALEMEDICAL

Some concerns are outside of the scope of practice of our therapists and require medical intervention. **Medicare rebates are applicable in some cases. Rebates are always at the doctor's discretion.

CONSULTS

15 mins / \$75*

30 mins / \$125*

60 mins / 180

Indicated for skin health and aesthetic concerns. Consults cover cosmetic concerns through to skin cancer diagnosis and management. Consults are required before any procedure can be booked.

VASCULAR LASER

15 mins / \$250*

30 mins / \$500*

Our superior vascular laser system, The Cutera CoolGlide, treats a broad range of vessels from tiny spider veins to deep blue reticular veins quickly, safely and effectively. Vascular conditions often require a course of treatments in order to produce an effective outcome.

SMARTXIDE CO2 ABLATIVE LASER

Per lesion / \$150*

Capped at / \$1,000 - 15 lesions*

Face & Bod Lesions / \$POA

Full Face / \$1,800

Décolletage / \$1,100

Neck / \$770

Package of 3 / \$3,600

DOT Therapy is ideal for the removal of skin lesions, to treat sun damage, pigmentation, fine lines, wrinkles, skin laxity, textural changes and acne scars. The DOT Therapy laser precisely creates thousands of microscopic holes (DOTs) in your skin, which induce immediate skin tightening and stimulate new collagen growth. In most cases, a topical or local anaesthetic will be used to ensure the procedure is as comfortable as possible.

PEARL & PEARL FRACTIONAL LASER

Pear Full Face / \$1,800

Pearl Décolletage / \$1,100

Package of 3 / \$3,600

Pearl Fusion Full Face / \$3,600

Spot treatment of Scars / from \$150 - \$500

Other Areas / POA

Pearl and Pearl Fractional Laser procedures are at the forefront of non-surgical skin rejuvenation. Resurfacing and fractional lasers create controlled injury of various depths that stimulates a natural healing process. This process initiates the production of new collagen to regenerate the skin. Specific preparation and after care must be strictly adhered to ensure a safe and effective outcome. This treatment is generally prescribed by our physician as a course of 3, or performed as a once-only procedure depending on the skin concerns. For full face downtime is 5-10 days.

MONA LISA TOUCH

Per treatment / \$770

Course of three / \$1,950

As a normal part of the ageing process, the walls of the vagina become thinner and the natural elasticity and blood supply reduce overtime. The protective mucosa of the vagina can lose hydration and thickness, causing a loss of lubrication. The symptoms of this can be vaginal dryness or itchiness, irritation and vaginal pain. Mona Lisa Touch is a quick and simple laser procedure which utilises fractional laser to stimulate hydration, strengthen mucous membranes and improve blood supply to the vaginal walls.

PHOTODYNAMIC THERAPY (PDT)- REJUVENATION

Full Face / \$500

Décolletage / \$500

Forearms / \$500

Single Lesion / \$85

Other Areas / POA

PDT stands for Photodynamic Therapy, which is a non surgical, non-invasive treatment for sun damaged and some superficial skin cancers. A topical product is applied to the treatment area and selectively absorbed by the damaged cells. A light source is subsequently applied, activating the ingredient within those cells. This causes damage only to the abnormal tissue. Expected healing time for photodynamic therapy is 3-7 days.

PHOTODYNAMIC THERAPY PDT - ACNE

Full Face / from \$200 - \$500

Upper Back / \$300

Other Areas / POA

Photodynamic therapy is an advanced solution for acne which is recalcitrant to the other treatments. A topical product is applied to the treatment area and selectively absorbed by inflamed skin and sebaceous glands. A light source is subsequently applied, activating the ingredient within those cells, and helps to kill acne bacteria. This significantly reduces inflammatory acne lesions. Expected healing time for photodynamic therapy for acne varies within individuals, but can be up to two weeks.

PRESCRIPTION PEELS

Full Face / from \$200 - \$500

Spot treatment / from \$150 - \$300

Other Areas / POA

Specific preparation and aftercare must be strictly adhered to to ensure a safe and effective outcome. Some skin conditions warrant a deeper level of resurfacing and therefore stronger chemical peeling agents are needed to achieve that effect. Physician-only peel preparations can elicit a more aggressive skin response, which can often lead to faster results. Downtime for deeper peels can be up to ten days.
